EXPRESSION OF INTEREST

I am interested in being involved in the Seventh International Conference and Exhibition on Information Security, to be held in Brighton, UK on 15–17 May, 1991 and intend to participate by:

- ☐ Registration as a delegate
- ☐ Submission of paper
- ☐ Exhibitor
- ☐ Sponsor
- ☐ Please keep my name on the mailing list

INVITATION

We extend to you a cordial invitation to participate in IFIP/Sec '91, the Seventh International Conference and Exhibition on Information Security which will be held at the Metropole Hotel, Brighton from 15 to 17 May, 1991.

BRIGHTON, UK

Brighton, a large coastal town in southern England, is easily accessible in about one hour from central London and is conveniently located for travellers arriving at either of London's main airports, but particularly Gatwick.

One of Britain's premier resorts, Brighton is pleasantly situated at the foot of the South Downs. It offers the visitor an unrivalled range of attractions, from splendid historic buildings including the famous Royal Pavilion and nearby Arundel Castle, to the hundreds of small, unusual shops and, of course, the colourful seafront and promenade.

The IFIP Conference will take place during the Brighton International Festival. All day and late into the night, hundreds of exciting events take place including theatre, visual arts, music, from classic to jazz, sports and cabaret. This is, indeed, a very special time to experience Brighton.

THE BRIGHTON METROPOLE HOTEL

The Conference will be held at the Metropole Hotel which is located on the sea front, close to the town centre.

LANGUAGE

The official language of the Conference will be English

IFIP

The International Federation for Information Processing was formed in Paris in 1960 by the representatives of eight national computer associations that had worked together with UNESCO in preparation for the First World Computer Congress held there the previous year. Last year 46 national organizations representing 64 countries were members of IFIP.

At the IFIP Congress held in Paris, France, during September 1983, an IFIP Technical Committee on Computer security (TC–11) was established.

The major aims of the committee are:

- to establish a frame of reference for security common to both EDP professionals and the public
- to exchange experience of practical security work
- to evaluate data processing techniques from security viewpoints
- to inform on new protective techniques and their proper use
- to promote security as being an important integral part of data processing

CALL FOR PAPERS

The conference objectives are:

- to emphasize the importance of information security as a critical management requirement
- to address the need to enhance the integrity and security of computer based systems and data networks
- to share knowledge in the development and use of information security management methods and systems security controls and technical tools
- to address the differing as well as common interests of management, auditors, security practitioners and the data processing community
- to promote international co-operation in the advancement of information and computer security practices and technologies

Contributions are invited describing practical experience and research on all aspects of computer, network and information security, including business, professional, legal, research and educational areas; papers with over-emphasis on specific product marketing will not be accepted.

Some suggested topic areas are:

- Professional practice and ethics in computer security
- Computer and data communication security
- Trusted computer systems architecture and standards
- Data base and operating systems security
- Techniques for evaluation of security products and systems
- Security in electronic data interchange and in open systems
- Encryption and its applications
- Security in electronic funds transfer
- Security and privacy in transborder data flow
- Security of office automation systems
- Business continuity and disaster recovery
- Risk assessment and management
- Information security management, policies and control practices
- Computer related crime and its detection, prosecution and prevention; relevant legislation
- Audit tools and methods
- Auditing systems development and applications; validation of software
- Auditing of data base management and of transaction systems
- Auditing of expert systems and expert systems in auditing
- Personal identification and authentication methods and technology; access control
- Security awareness and education

DEADLINES

The Programme Committee will select papers based on the submitted abstracts (see Instructions to Authors).
Full camera-ready versions of the selected papers must be submitted by the third deadline date.
All abstracts and other correspondence should be addressed to the Conference Secretariat.

31 May 1990	Three copies of the abstract delivered to the Secretariat
30 September 1990	Authors notified of acceptance or rejection
28 February 1991	Authors of accepted papers to deliver camera-ready copy for inclusion in the Proceedings

FURTHER ANNOUNCEMENTS

Further information, documentation and brochures containing detailed information on the Conference, programme, registration details etc., will be available in December 1990.

INSTRUCTIONS FOR AUTHORS

Abstracts must be presented in English and be typed in double space, on one side of each sheet. The abstract should not exceed 2500 words and should not be less than 1000 words. Note that the initial submission is required in the form of an abstract with the full version of selected papers to be supplied at a later date.

Each submission should include the following:

a Title of paper
b Name(s), country, affiliation of author(s) and full mailing address and telephone contact number
c The following signed statement:
"Neither this paper nor any version close to it has been/is being offered elsewhere for publication and, if accepted, the paper will be personally presented at IFIP/Sec '91 by the author or one of the co-authors"
d All illustrations, with titles, numbered consecutively and properly related to the text.
e All pages of text must show the author's name in the upper left-hand corner and should be numbered consecutively in the upper right-hand corner

Authors are requested to give an estimate of the time required for their presentation (30, 45 or 60 minutes) Authors will be granted a discount off the published conference fee.

TRAVEL, ACCOMMODATION AND SOCIAL PROGRAMME

Accommodation has been arranged at a variety of hotels and guest houses, all within walking distance of the conference hotel. Full details of these, and the special prices which have been negotiated for IFIP/Sec '91 delegates, will be available with the registration brochure.

Brighton is situated in an area of great scenic beauty and an extensive social programme will be available to cater for all tastes and interests. There will also be an accompanying partners programme. Details and costs will be provided in the registration brochure as will general travel information.
