General Co-Chairs:

## Conference Venue – Technical University of Denmark (Lyngby Campus)

- Founded in 1829 with the mission of creating value for the benefit of society, DTU is an international elite technical university where education, scientific advice, and innovation rest on a solid foundation of world-class research. The University is at the academic and multidisciplinary forefront of the technical and the natural sciences—with new initiatives in a number of demanding engineering disciplines, including sustainable energy technology and life science.
- DTU's main campus is located north of Copenhagen near the town of Lyngby. More than 100 buildings are scattered across the 106-hectare great plain, which is divided into four quadrants – exactly like points in a coordinate system. The campus is safe and secure and a site of great natural beauty: wooded areas, squares, inner courtyards and gardens, sports fields and a central avenue are nestled in the gaps between the buildings and combine to create an aesthetically pleasing architectural statement.
- **DTU's Meeting Centre consists of 20 conference rooms.** The Meeting Centre in Building 101 on Lyngby Campus includes a lounge and a café area with access to the outdoor atrium. The conference rooms themselves are equipped with modern AV and IT equipment and one of rooms is set up for video conferences. **Our glass hall can hold up to 260 participants.**
